

BENIDITTO EKA VIYANTYO

Yogyakarta, Indonesia | beniditto21052004@gmail.com | +62 853-6940-6838

Computer Science student with hands-on experience in web and mobile application development, data processing, machine learning, and Web3 projects. I am interested in developing my skills in data engineering and full-stack web development, while continuing to explore Android development and other emerging technologies. I enjoy learning through practical projects and turning technical ideas into applications that solve real problems.

EDUCATION

Universitas Atma Jaya Yogyakarta

Bachelor's Degree in Informatics

Expected Graduation: 2026

GPA: 3.61/ 4.00

Yogyakarta, Indonesia

August 2022 - Present

TECHNICAL SKILLS

Programming Languages

- Python, JavaScript, TypeScript, PHP, Dart, Solidity

Web & Mobile Languages

- HTML/ CSS, Laravel, React, Next.js, Flutter, Bootstrap, Tailwind CSS

Data, AI & Web3

- PostgreSQL, MySQL, Firebase, AlexNet, Google Gemini, Chainlink, wagmi, viem, Base Sepolia.

INTERNSHIP EXPERIENCE

Astra Credit Companies (ACC) - Berijalan

September 2025 – March 2026

QC & Web Development

- Conducted quality control on agent–customer conversations, analyzed recurring issues, and validated AI-generated assessments against manual evaluations. Developed a web dashboard to help Team Leaders monitor agent performance, customer potential, and QC results.

PT Sinar Merpati Kreatif

July 2025 – December 2025

Web Development

- Assisted in developing frontend features for Yogya Komtek web applications, including interface implementation, testing, and bug fixing.

SELECTED PROJECTS

QC Report Dashboard Berijalan

- Built a dashboard that processes AI-generated QC data from Excel and presents Agent and Team Leader performance for monitoring, analysis, and auditing.
- Link: <https://qc-report-dashboard-v2.vercel.app>

OmniOracle

- Developed a decentralized prediction market prototype with wallet-based predictions, automated market resolution, cross-chain functionality, and AI-assisted verification.
- Link: <https://omnioracle.vercel.app>

Reusemart

- Developed a web and mobile marketplace with product listings, category filters, authentication, checkout, and second-hand product donation features.

- Link: <https://reusemarted.barioth.web.id/>

Mushroom Type Prediction

- Helped prepare and preprocess a team dataset of more than 1,500 labeled mushroom images and implemented an AlexNet-based image classification model.
- Link: <https://proyek-uas-pmdpmah2o-jundqxd4grrfhkqpcuwtxf.streamlit.app/>

Atma Travel

- Developed an Admin panel for managing driver information, vehicle data, and transportation schedules as part of a university transportation and delivery service application.
- Link Design Application: https://www.figma.com/file/2DxJbYRNvmj0fUalUM7OFn/PBP_Kelompok5_Travel

ORGANIZATIONAL EXPERIENCE

ACC Family Day

November 2025

Logistic & Equipment Staff

- Managed equipment preparation and logistical coordination for ACC Family Day at Suraloka Zoo, ensuring event activities ran smoothly for employees and their families.

Kelompok Studi Linux

August 2023 – June 2024

Secretary

- Served as a secretary responsible for handling official correspondence, including room reservations, event proposals, and other internal administrative matters. In addition to administrative tasks, also contributed to delivering materials on basic hacking and Linux.

Git & GitHub Workshop

May 2024

Secretariat Coordinator

- Served as part of the secretariat team, responsible for ensuring all participants and committee members were present on time, as well as managing attendance and coordinating team members throughout the event.

I-FEST #11

January 2023 – May 2023

Logistic & Equipment Staff

- Worked in the logistics and equipment division for I-Fest, a series of five monthly events, with one event held each month over a five-month period.

Marching Band UAJY

October 2022 – October 2023

Player & Battery Division Leader

- Served as both a player and Battery Division leader in the Atma Jaya Yogyakarta University Marching Band, helping the team achieve 2nd place at the Hamengkubuwono Cup.

COMPETITION EXPERIENCE

Chainlink Web3 Competition

March 2026

- Developed OmniOracle, a Web3-based prediction market prototype that enables users to participate in decentralized forecasting using blockchain technology.

NETCOMP Cyber Security Competition

January 2025

- Competed in cybersecurity challenges covering OSINT, digital forensics, reverse engineering, and other security-related problem-solving tasks.

GEMASTIK Game Development

June 2024

- Developed an educational game focused on waste sorting and environmental awareness, designed to help elementary school students learn proper waste management practices.
